

RAISING THE STANDARD OF DOG TRAINING IN THE UK

AlphaGuardK9 don't just provide guard dogs - at least not in the way that most people would expect!

In the UK, there is no nationally enforced standard that guard dogs have to meet and maintain. To change this, **AlphaGuardK9 are working hard with the National Training Institute for Professional Dog Users (NTIPDU) to raise the standards of working dogs.**

AlphaGuardK9 offer highly trained security patrol dogs - but make no mistake - these are much more than just guard dogs.

Each security dog has undertaken and passed a high level of training, and this level is maintained through regular continuation training. Each handler also undertakes training and lives with their dog so that the dog and handler team form a strong relationship, making the training much more effective.

AlphaGuardK9 dogs are trained to detect an intruder, track them over vast distances and find and preserve evidence as well as normal guard dog work.

From single dog and handler units, to teams of units, AlphaGuardK9 offer fully trained, qualified, uniformed, insured and SIA licensed specialist working teams to fulfil your every security requirement.
